

This is a detailed electronic schematic diagram of a television set, likely from the mid-20th century. The diagram illustrates the internal circuitry, including the power supply section, tuner, video amplifier, and CRT driver stage.

- Power Supply Section:** Located at the bottom right, it features a transformer (T402) providing multiple secondary voltages (e.g., 280V, 250V, 170V, 160V, 150V, 140V, 130V, 120V, 110V, 100V, 90V, 80V, 70V, 60V, 50V, 40V, 30V, 20V, 10V).
